Weng X, Zhang J-M, Wong J-Z. MAL-2. A Transcriptional signaling domain for human TGF-b2. Nat Cell Biol [14] van der Ploeg L, van der Ploeg H-J, van der Pollard K, van et al. TGF-b signaling through the innate immune response in the mouse brain. Nature 431, 433–439. [15] Weng X, Zhang J-M, Wang S-J, Zhang S-J. Transcriptional signaling domain for human innate immune response in the mouse brain. Nature 431, 433–439. [16] Zhang K-Y, Wei Y-M, Zhou Y-L, Wu H-C. The TGF-b2 homologue, TGF-b1. Nature 431, 434–435. [17] Zhang Y-C, Zhang S-J. TGF-b1. TGF-b2 gene expression in mouse brain: a mouse model of infection. Biochim Biophys Acta [18] Wu H-W, Zhang K-Y, Wang S-J. TGF-b2 in vivo human cerebral epithelial neoproblastic cells: effects of TGF-b1. Development [19] Zhang Y-C, Zhang H-W, Zhang K-Y, Zhang S-J. TGF-b2 in vivo human cerebral epithelial neoproblastic cells: effects of TGF-b1. Development [20] Zhang Y-C, Zhang H-W, Zhang H-W, Zhang S-J. Transcriptional expression of TGF-b1 in mouse brain. Neurogenesis 4, 471–481. [21] Zhang Y-C, Zhang H-W, Zhang S-J. TGF-b1 expression in human cerebral epithelial neoproblastic cells: effects of TGF-b1. Development [22] Zhang H-W, Zhang S-J. TGF-b1 expression in mouse brains: a mouse model of infection. Neurogenesis [23] Zhang Y-C, Zhang H-W, Zhang S-J. TGF-b1 in vivo human cerebral occipital epithelial neoproblastic cells: effects of TGF-b1. Development [24] Zhang H-W, Zhang H-W, Zhang S-J. Transcriptional expression of TGF-b1. Development [25] Zhang Y-C, Zhang H-W, Zhang S-J. TGF-b1 expression in mouse brain: a mouse model of infection. Neurogenesis 4, 471–481 [26] Zhang Y-C, Zhang H-W, Zhang S-J. TGF-b1 expression in human cerebral occipital neoproblastic cells: effects of TGF-b1. Development [27] Zhang Y-C, Zhang H-W, Zhang S-J. TGF-b1 expression in mouse brains: a mouse model of infection. Development [28] Zhang X, Zhang H-W, Zhang S-J. TGF-b1 expression in mouse brain: a mouse model of infection. Neurogenesis 4, 471–481. [29] Zhang Y-C, Zhang H-W, Zhang S-J. TGF-b1 expression in mouse brains: a mouse model of infection. Neurogenesis [30] Zhang Y-C, Zhang H-W, Zhang S-J. TGF-b1 expression in mouse brains: a mouse model of infection. Development [31] Zhang Y-C, Zhang S-J. TGF-b1 expression in mouse brains: a mouse model of infection. Neurogenesis 4, 471–481. [32] Zhang Y-C, Zhang S-J. TGF-b1 expression in mouse brains: a mouse model of infection. Neurogenesis 8, 471–481. [33] Zhang Y-C, Zhang S-J. TGF-b1 expression in mouse brains: a mouse model of infection. Neurogenesis 4, 471–481. [34] Zhang H-W, Zhang H-W, Zhang S-J. TGF-b1 expression in mouse brains: a mouse model of infection. Neurogenesis [35] Zhang Y-C, Zhang H-W, Zhang S-J. TGF-b1 expression in mouse brains: a mouse model of infection. Neurogenesis [36] Zhang H-W, Zhang H-W, Zhang
