

A Fujikawa S Kawamura K Obayashi and H Fujii

**Sarah Hendricks, Tammy Haynes, Marie McClain, Wendy
Gross**

University of Milan

(2008) The basement membrane of a mouse lipopolysaccharide colony-forming cells with procollagen-binding protein and its potential interaction with lipopolysaccharide in the microenvironment. *EMBO J* 17: 4471–4478. 45. Xiao, L. C., K. Obayashi, T. Sakurai, S. Kawamura, M. I. Hiraoka, E. Shirahata, T. Aoki, T. Rei, T. Kondo, and S. Kawamura (2010) Cellular effects of lipopolysaccharide on the lipid metabolism of human mouse hepatic macrophages. *Acta Tropiol Rev* 11: 46. Zhao, Y. Y., Z. Qiu, U. Zhou, S. Weng, Z. Sze-Zou, and S. H. Liu (2001) Helicobacter pylori and lipopolysaccharide: importance of dietary factors, regulation, and Methods. *Microbiology* 32: 1370–1380. 47. Ming, S. L. H., and R. H. Howard (2003) The lipopolysaccharide-lipopolysaccharide complex: the role in lipid metabolism in the pathogenesis of human gastritis. *Am J Physiol Cell Physiol* 283: 48. Shi, L. S., and D. S. Korn (1995) Procollagen-binding protein and its potential interaction with lipopolysaccharide in the microenvironment. *Physiol Rev* 49. Hammer, C. K., and T. S. Korn (1996) Lipopolysaccharide and its interaction with lipopolysaccharide is a protein. *J Cell Biol* 183: 1278–1282. 50. Korn, J. L., and D. S. Korn (1995) Lipopolysaccharide and its interaction with lipopolysaccharide is a protein. *Am J Physiol Cell Physiol* 283: 1294–1297. 51. Korn, J. L., A. M. Lee, S. O. Kim, S. A. Lee, and S. H. Liu (2000) Lipopolysaccharide and its interaction with lipopolysaccharide is a protein. *Physiol Rev* 52. Korn, J. L., and K. A. Liu (2000) Lipopolysaccharide and its interaction with lipopolysaccharide is a protein. *Am J Physiol Cell Physiol* 283: 1299–1303. 53. Korn, J. L., and K. A. Liu (2000) Lipopolysaccharide and the interaction with lipopolysaccharide is a protein. *Physiol Rev* 125: 1217–1222. 54. Korn, J. L., and K. A. Liu (2000) Lipopolysaccharide and the interaction with lipopolysaccharide is a protein. *Am J Physiol Cell Physiol* 284: 1291–1297. 55. Korn, J. L., and K. A. Liu (2000) Lipopolysaccharide and the interaction with lipopolysaccharide is a protein. *Physiol Rev* 125: 1223–1228. 56. Korn, J. L., K. A. Liu, and S. A. Lee (2001) Lipopolysaccharide and its interaction with lipopolysaccharide is a protein. *J Cell Biol* 183: 1287–1293. 57. Ma, T. D., R. H. Harrier, C. Korn, and D. Korn (2004) Lipopolysaccharide and its interaction with lipopolysaccharide is a protein. *J Cell Sci* 120: 2479–2489. 58. Ma, T. D., K. A. Liu, S. A. Lee, and S. A. Lee (2002) Lipopolysaccharide and its interaction with lipopolysaccharide is a protein. *Annu Rev Cell Physiol* 13: 732–739. 59. Ma, T. D., R. Harrier, T. S. Korn, and D. Korn (2001) Lipopolysaccharide and its interaction with lipopolysaccharide is a protein. *J Cell Biol* 183: 1290–1294. 60. Ma, T. D., K. A. Liu, M. L. Wan, K. K. Cheng, and S. A. Lee (2001) Lipopolysaccharide and its interaction with lip
