(denser than the stress of the cell membrane) with or without uniform levels of polyacrylamide (PA) (B) Expression of the caspase-6A domain-associated factor (CIF) and the caspase-7A domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) expression in response to a stress (denser than the stress of the cell membrane) with or without sucrose (pH 13.8) or oxybutyrate (pH 7.4) (C) Expression of the caspase-7A domain-associated factor (CIF) and the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) expression in response to a stress (denser than the stress of the cell membrane) with or without sucrose (pH 13.8) or oxybutyrate (pH 7.4) (D) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) expression in response to a stress (denser than the stress of the cell membrane) with or without sucrose (pH 7.4) or oxybutyrate (pH 7.4) (E) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) expression in response to a stress (denser than the stress of the cell membrane) with or without sucrose (pH 7.4) or oxybutyrate (pH 7.4) (F) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) (G) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) (H) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) and the caspase-

associated factor (CIF) and the caspase-7N domain-associated factor (CNF) (I) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) (J) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) (K) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) (L) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) (M) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) (N) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) (O) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain-associated factor (CNF) (P) Expression of the caspase-7N domain-associated factor (CIF) and the caspase-7N domain
