The two side option is not about plac- cacbacbafbadfijaspofijasdfoiadfiasfa ab-

ing text in a multicolumn fashion. While cacbacbafbadfijaspofijasdfoiadfiasfa oneside is typical for articles and reports, the twoside option is loaded when you want to have a double-sided document, allowing you to set the margins, asymmetrically, in order to bind the document as a book. The two side option is not about placing text in a multicolumn fashion.
